

O. Reg 243/07: 2007 Lead Data Results Release

Chief's Letter

Public School Report

- How many schools sampled for lead in 2007?
- What are the sampling requirements?
- How often do schools have to sample?
- Why haven't all schools sampled?
- What is the difference between a standing and a flushed result?
- What concentration of lead is being found in public schools?
- What do the numbers on the graph mean?
- What does the province do if a school has a result above 10 ug/L?
- Why doesn't the number of schools submitting results match for the various statistics?
- How do I find out the results for a specific school?

Private School Report

- How many private schools sampled for lead in 2007?
- What are the sampling requirements?
- How often do private schools have to sample?
- Why haven't all private schools sampled?
- What is the difference between a standing and a flushed result?
- What concentration of lead is being found in private schools?
- What do the numbers on the graph mean?
- What does the province do if a private school has a result above 10 ug/L?
- Why doesn't the number of schools submitting results match for the various statistics?
- How do I find out the results for a specific private school?
