

Recovery of Minerals

Designated Lands for Exclusion

As per Subsection 152.2 (2) of the *Mining Act*, the Minister may designate specified lands to be excluded from recovery permit activities. A person may not apply for a recovery permit on excluded lands. The criteria for designating lands for exclusion includes:

1. Lands where the province has invested or intends to invest significant funding for rehabilitation; and,
2. Active and inactive uranium mine sites, including federally regulated sites, and inactive asbestos mines, which pose a significant risk to public health and safety, and the environment.

A list of designated lands for exclusion is provided in the table below.
