

Ministry of Natural Resources

Internship Program

Looking for opportunities to build on your postsecondary education while making a real impact to Ontarians?

The internship program at the Ministry of Natural Resources (MNR) is a 1-year job program for recent postsecondary graduates, starting in May or June each year.

Our internships are rewarding opportunities across diverse fields. Interns receive hands-on experience, training, mentorship and networking opportunities across the Ontario Public Service (OPS). Positions include technical, administrative and specialist roles across several areas of work at the ministry.

How to qualify

Postsecondary students are eligible if they:

- are a recent graduate from an approved or legally authorized college or university with a degree, postgraduate certificate or diploma in the last 4 years
- are eligible to work in Canada
- have not already participated in the MNR Internship Program
- are not a permanent OPS employee

How to apply

Internship positions are posted on **ontario.ca/careers** in February. You can apply for multiple positions and set up job alerts to receive notifications about new job opportunities.
